

Product Highlight:
Multi-Functional Straight Contact Series

**STRAIGHT
FLAT CONTACT STRIP
SERIES**

As one of the most versatile series of parts, the "Contact Series" lends itself to a variety of applications. This series is produced as flat strips, "U-formed" strips and "U-formed" clip-on strips. In addition, the flat strip and "U-formed" strips can be rolled into rings, of various sizes, in order to accommodate cylindrical applications. All strips can be cut to specified lengths, as required. In order to prevent fracturing or deformation of fingers while functioning, these parts should be mounted so that the deflection forces are
