## Features and Benefits

- $2.5 \mathrm{~W} / \mathrm{m}$-K thermal conductivity
- Good compressibility
- RoHS Compliant
- Halogen-free
- Naturally tacky

## Typical Applications

- Cooling component to the chassis, frame, or other type of heat spreader
- Mass storage devise
- Heat pipe assemblies
- RDRAM memory modules
- Motor control
- Telecommunication hardware

## Optional Configurations

- Can be die-cut into specific dimensions

OP-8400 Spec 08 is a performance-improved derivative of the original OP-8400 gap pad. It is exceptionally soft and exhibits good thermal performance. It is compliant to RoHS standard while maintaining its halogen-free status. These special features are benefited from the proprietary composition of metal oxide fillers in its binder matrix.
It is electrically non-conductive and naturally tacky. Additional adhesive is generally not required.
